UBER has been a life saver for me in many states. To know they are being shut down in my home states shows how behind and slow SC really is. Get on the level of MAJOR metropolitans you have to stop frivolous actions against business like UBER. Catch up with the time South Carolina!

It's a service that I've been using around the world and would be a big opponent to disbanding the service in SC.

This order is ridiculous. Uber has more liability insurance than cab companies do. S.C needs Uber I don't want to have to ride in a stinky cab that has been smoked in all day.

Dear Sir / Madam

Uber is a great service changing the public transportation industry for the better. Disruptive technologies and competition is a good thing for consumers. Don't cave to corrupt lobbyists and politicians lining their pockets or taking care of their buddies, keep uber in SC and help make SC a forward thinking state.

Why not try using Uber for starters, see what a great alternative it is and leave consumers to make their own choice, isn't that what America is all about... Freedom to choose.

Best Regards
